NOTICE IS GIVEN TO:

The Flood Disaster Protection Act of 1973, as amended, requires that federally regulated lending institutions shall not make, increase, extend, or renew any loan secured by improved real estate, or a mobile home located, or to be located, in an area that has been identified by the Directory of the Federal Emergency Management Agency (FEMA) as an area having special flood hazards and in which flood insurance has been made available under the National Flood Insurance Act of 1968, through the National Flood Insurance Program (NFIP), unless the building or mobile home and any personal property securing such loan is covered for the term of the loan by flood insurance in an amount at least equal to the outstanding principal balance of the loan or the maximum limit of coverage made available under the Act with respect to the particular type of property, whichever is less.

NOTICE TO BORROW ABOUT SPECIAL FLOOD HAZARD AREA STATUS

Notice of Property in Special Flood Hazard Area (SFHA)

The building or mobile home securing the loan for which you have applied is or will be located in an area with special flood hazards. The area has been identified by the Director of FEMA as an SFHA using FEMA's Flood Insurance Rate Map or the Flood Hazard Boundary Map for the following community: Bergenfield Borough

This area has at least a one percent (1%) change of a flood equal to or exceeding the base flood elevation (a 100-year flood) in any given year. During the life of a 30-year mortgage loan, the risk of a 100-year flood in a SFHA is 26 percent (26%). Federal law allows a lender and borrower jointly to request the Director of FEMA to review the determination of whether the property securing the loan is located in an SFHA. If you would like to make such a request, please contact us for further information.

Notice of Property Not in Special Flood Hazard Area (SFHA)

The building or mobile home described in the attached instrument is not currently located in an area designated by the Director of FEMA as a SFHA. NFIP flood insurance is not required, but may be available. If, during the term of this loan, the subject property is identified as being in a SFHA, as designated by FEMA, you may be required to purchase and maintain flood insurance at your expense.

NOTICE TO BORROWER ABOUT FEDERAL DISASTER ASSISTANCE

Notice in Participating Communities

The community in which the property securing the loan is located participates in the NFIP. The Flood Disaster Protection Act of 1973, as amended, mandates federally insured or regulated lenders to require the purchase of flood insurance on all buildings being financed that are located in SFHAs of communities participating in the NFIP. The flood insurance must be maintained for the term of the loan. If you fail to purchase or renew flood insurance on the property, federal law authorizes and requires us to purchase the flood insurance at your expense.

- Flood insurance coverage under the NFIP may be purchased through an insurance agent who will obtain the policy either directly through the NFIP or through an insurance company that participates in the NFIP. Flood insurance also may be available from private insurers that do not participate in the NFIP.
- At a minimum, flood insurance purchased must cover the lesser of:
 - 1) the outstanding principal balance of the loan; or
 - 2) the maximum amount of coverage allowed for the type of property under the NFIP.

Flood insurance coverage under the NFIP is limited to the overall value of the property securing the loan minus the value of the land on which the property is located.

- Federal disaster relief assistance (usually in the form of a low-interest loan) may be available for damages incurred in excess of your flood insurance if your community's participation in the NFIP is in accordance with NFIP requirements.

Notice in Nonparticipating Communities

Flood insurance coverage under the NFIP is not available for the property securing the loan because the community in which the property is located does not participate in the NFIP. In addition, if the nonparticipating community has been identified for at least one year as containing an SFHA, properties located in the community will not be eligible for federal disaster relief assistance in the event of a federally-declared flood disaster.

Flood Zone Legend

The 1% annual flood (100 year flood), also known as the base flood, is the flood that has a 1% chance of being equaled or exceeded in any given year. The Special Flood Hazard Area is the area subject to flooding by the 1% annual chance flood. Areas of Special Flood Hazard include Zones A, AE, AH, AO, AR, A99, V, and VE. The Base Flood Elevation is the water-surface elevation of the 1% annual flood.

SFHAs (Special Flood Hazard Area designated zones)

Zone A – No Base Flood Elevations determined.

Zone AE – Base Flood Elevations determined.

Zone AH – Flood depths of 1 to 3 feet (usually areas of ponding); Base Flood Elevations determined.

Zone AO – Flood Depths of 1 to 3 feet (usually sheet flow on sloping terrain); average depths determined. For areas of alluvial fan flooding, velocities also determined.

Zone AR – Special Flood Hazard Area formerly protected from the 1% annual chance flood by a flood control system that was subsequently decertified. Zone AR indicates that the former flood control system is being restored to provide protection from the 1% annual chance or greater flood.

Zone A99 – Area to be protected from 1% annual chance flood by a Federal flood protection system under construction; no Base Flood Elevations determined.

Zone V – Coastal flood zone with velocity (wave action); no Base Flood Elevations determined.

Zone VE – Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined.

OTHER (Zones which are NOT designated as Special Flood Hazard Areas)

X (0.2 percent annual chance) – Areas of 0.2% annual chance flood; areas of 1% annual chance flood with average depths of less than 1 foot or with drainage areas less than 1 square mile; and areas protected by levees from 1% annual chance flood.

X – Areas determined to be outside the 0.2% annual chance floodplain

D – Areas in which flood hazards are undetermined, but possible.
